

Kevin S. Marion, AIA, NCARB, LEEDap

EXPERIENCE

Kevin has designed and managed building projects from pre-design/master planning phase through construction administration and closeout. Project types designed range from performing arts, university and primary education, civic, religious, hospitality, museums, commercial/corporate, custom residential and competition work. He has also been involved in several master planning/town re-visioning projects providing clients with direction on town growth for 10-20 year development plans.

Specialties include pre-design layout, concept & schematic design, designing in 3 dimensions and 3D Modeling. 3D modeling proficiencies include SketchUp/Podium, Adobe Photoshop, PowerCADD, AutoCad and 3D StudioMax. Kevin also enjoys incorporating his own artwork into his architectural designs. Kevin always presents excellent communication skills and good rapport with his co-workers, clients, consultants and contractors.
